

ADMIRALTY SECONDARY SCHOOL PARENT SUPPORT GROUP (PSG)

The Parent Support Group (PSG) was established to strengthen the bond between the school and parents, aiming to benefit students holistically. Its objectives include involving parents in their children's educational journey, gathering support for school activities, and leveraging parents' expertise to enhance the overall school experience.

The PSG Executive Committee, led by Mdm Joey Ching as Chairperson and Mdm Cindy Tay as Vice-Chairperson, has set clear goals for the group. They have organized various meaningful activities to engage parents, reinforcing their role as active partners in their children's education. This proactive leadership ensures the PSG remains aligned with the school's vision and objectives.

A key role of PSG is facilitating timely and effective communication between the school and parents. Through level chat groups, in addition to the school's official communication platforms, the PSG ensures parents are well-informed. This structure has improved two-way communication, fostering transparency and collaboration.

Beyond communication, the PSG supports parents with resources on parenting tips and strategies for meeting their children's emotional needs. By offering guidance, the PSG helps parents strengthen parent-child relationships, promoting emotional resilience and well-being among students.

Many enthusiastic parents have offered their help at various activities/events. The active involvement of parents in school and PSG activities/events such as Admiralty Experience/Open House, Admirals' Run, Staff Appreciation Day, Parent-Child Bonding Sessions, Graduation Ceremony and PSG Appreciation Day has significant impact on the development of our students.

The collaborative efforts of school leaders, staff, and PSG members have shaped a strong school-home partnership. This synergy ensures that both parties work cohesively to support students' holistic development and nurture a thriving school environment.

One of PSG's signature initiatives, "Let Us Chat!" launched in May 2021, exemplifies its commitment to student and parent well-being. Designed to support children's learning and emotional health, this program has received positive outcomes and feedback, reinforcing its importance in strengthening the school-home connection.

PSG provides a great opportunity for us to be closer to our children/wards. Our children /wards benefit greatly when we understand them better, and they tend to show more positive attitudes.

The school and PSG would like to extend our invitation to you to join in this meaningful partnership. Please fill in the following:
